Certification and Compliance Highlights

- Issued Tier 2 bin 5 certificates to Audi, BMW, Mercedes, and VW for new clean technology diesel vehicles utilizing diesel particulate filters and selective catalyst reduction (SCR) NOx control systems. The VW Jetta TDI diesel vehicle uses a NOx adsorber to control NOx emissions in lieu of a SCR system.
- Certified two electric vehicles - BMW electric Mini and Tesla Roadster.
- Began development of new policy for establishing fuel economy labels and test procedures for plug-in hybrids which will be ready in 2010.
- Successfully certified and confirmatory tested on E85 test fuel, FFVs from Chrysler, GM, Ford, Nissan, and Toyota.
